Navigation & Space Tech | Telecommunications Intern @Khalda Petroleum | Networking & Embedded Systems
Cairo, Cairo, Egypt

Summary

I help businesses and teams save time and cut operational costs by building intelligent AI Automations and custom workflows. As an AI Automation Engineer trained through the Digital Egypt Pioneers Initiative (DEPI), I specialize in integrating AI models with business tools to streamline operations and eliminate repetitive tasks. Core Services & Capabilities:

- AI Workflow Automation (n8n, Make, Python)
- Custom AI Agents & Chatbots Development
- API Integrations & Webhooks
- Prompt Engineering & LLM Implementation
- Business Process Optimization Engineering

Background: Student of Navigation Science & Space Technology with hands-on technical exposure in IT operations, networking, and systems. Looking to automate your business processes or build custom AI solutions? Let's connect or drop me a message to discuss your project!

Experience

Khalda Petroleum Company

Information Technology Support Specialist

July 2026 - Present (3 months)

Qesm El Maadi

Completed a Summer IT Internship at Khalda Petroleum Company Headquarters (Maadi). Gained hands-on exposure to enterprise Information Technology operations and digital infrastructure supporting the energy sector.

Key Learnings & Exposure:

- Enterprise IT infrastructure and corporate systems management.
- Understanding IT solutions, network fundamentals, and technical support in oil & gas operations.
- Overview of data management, workflow optimization, and operational tech support.
- Exposure to corporate IT governance and safety compliance.

Telecom Egypt

Network Trainee

August 2025 - September 2025 (2 months)

Egypt

Completed an intensive 50-hour Summer Network Training at Telecom Egypt (WE).

Key Exposure & Technical Topics:

- TCP/IP Standard & Core Networking Fundamentals.
- Introduction to Routing Protocols & Switching Concepts.
- Practical field exposure through a Data Center Visit.

Education

Beni-Suef University

Navigation science and space technology-Applied science · (October 2022)
